LENA T P

SOFTWARE DEVELOPER

Kannur, Kerala | lenaunnikrishnan3090@gmail.com | +91 9074762136 | linkedin.com/in/lena-unnikrishnan | github.com/lenatp3090

PROFESSIONAL SUMMARY

Recently completed MCA graduate with knowledge of Python, Java, SQL, object-oriented programming, DBMS, and web development. Experienced in developing and testing applications using Python and Django, working with databases, debugging issues, and maintaining code using Git. Familiar with software development life cycle and documentation. Eager to contribute to software development activities, maintain quality standards, and enhance technical skills in a professional environment.

EXPERIENCE

Python Developer Intern Jan 2026 – Jun 2026

Wistora IQ Solutions

- Developed web applications using Python and Django.
- Worked with MySQL to store, manage, and retrieve data.
- Developed application features based on project requirements.
- Fixed errors and tested applications to ensure proper functionality.
- Used Git and GitHub to manage and update project code.

TECHNICAL SKILLS

- Programming Languages: Python, SQL, Java, PHP,C, C++
- Frontend Development: HTML, CSS, JavaScript, Bootstrap, React.js
- Backend Development: Django, Flask, REST APIs
- Databases: MySQL, MongoDB, Database Design
- Tools: Git, GitHub, VS Code, Excel
- Software Concepts: SDLC, Agile Methodology, Scrum, Version Control, Debugging

PROJECTS

Call Guard – Scam Detection System

Technologies: Python, Django, NLP, Machine Learning, Scikit-learn

- Developed a machine learning application to detect and classify scam messages.
- Applied text preprocessing and feature extraction to train classification models.
- Integrated the trained model with Django for scam detection.

Haritha Connect – Waste Management System

Technologies: Python, Django, HTML, CSS, JavaScript, SQL

- Developed a web application for waste complaint tracking and service requests.
- Implemented backend functionality and database management using Django and SQL.
- Designed a responsive and user-friendly interface.

CS Dorm – Student Management System

Technologies: Python, SQL, HTML, CSS, JavaScript, Bootstrap

- Developed a system to manage student and academic records.
- Designed a database for efficient data storage and retrieval.
- Implemented academic record reporting and a responsive user interface.

EDUCATION

Master of Computer Applications (MCA)
APJ Abdul Kalam Technological University, CGPA: **8.36 /10** 2024 – 2026

Bachelor of Science in Computer Science (BSc CS)
Kannur University, CGPA: **7.17 /10** 2021 – 2024
